

7 DAY LICENSED

# NLP Practitioner Programme Edinburgh

27TH APRIL TO  
3RD MAY 2022

## WHAT IS NLP AND WHY SHOULD I LEARN IT?

- Neuro Linguistic Programming teaches you how to use your brain for a change
- By learning how to manage your own head, your language, your thinking and your feelings, you get better outcomes in life. In fact, learning NLP means you shape the outcomes you want and no longer leave it to chance or someone else!
- Created by Dr Richard Bandler and John Grinder in the 1970's, NLP is a meta discipline unlike anything else you've experienced before.
- The 7 day programme (yes, it's all 7 days, including the weekends) is designed to allow you to experience momentous shifts in thinking and feelings which will remain with you for the rest of your life
- NLP puts you in the driving seat of your life, work, health and relationships

## HOW DO WE TEACH IT?

- The co-founders of Tricres, Rebecca and Nick will be working together to ensure you receive the best learning experience possible. We work with small groups of up to twelve people so you get great individual attention
- In a relaxed, comfortable and good natured atmosphere, you'll soon find the days slip by so when the 7 days are up, you're in a state of calm, good humour, positive and confident position, ready to take on the challenges of your life and work
- We teach it from a business-oriented perspective and stay true to the core syllabus of Dr Bandler's own seminars
- We usually start at 09:30 and finish around 4:30 each day, including the weekends
- It's very interactive, so be prepared to join in
- There is swearing and laughter. Bring an open mind and a sense of humour. If you take yourself too seriously or are easily offended, please don't sign up because you don't like it

## WHAT WILL YOU GET OUT OF IT?

- Exactly what you want. We show you how to get more of what you want so as the 7 days go progress, you'll get more and more out of it
- An NLP Practitioner Certificate, signed by Dr Richard Bandler and John La Valle (John has been on Dr Bandler's training team for over 30 years)
- A new way of communicating, understanding and processing the world around you
